Attentive for Wag! My dog walker was very trusting. I was able to give someone access to my home and puppy but it was the best on I made while I was on a trip and my dog was working. She was extremely attentive, kind, and efficient. I'm forever grateful and would highly recommend using WAG. Also, my dog loves her dog doesn't love anyone. This app is really useful and I wouldn't have found another dog walking.

Disclaimer

This investor presentation (this "Investor Presentation") has been prepared by Wag Labs, Inc. (the "Company") and CHW Acquisition Corporation (the "SPAC") in connection with the proposed business combination (the "Business Combination") of the SPAC and the Company.

This Investor Presentation is for informational purposes only and does not constitute (i) a solicitation of a proxy, consent or authorization with respect to any securities or in respect of the proposed Business Combination or (ii) an offer to sell, a solicitation of an offer to buy, or a recommendation to purchase any equity, debt or other financial instruments of the SPAC or the Company, or their respective affiliates, which offer may only be made at the time a qualified offeror receives definitive offering documents and other materials (collectively, the "Offering Materials"). Without limiting the generality of the foregoing, this Investor Presentation does not constitute an invitation or inducement of any sort to any person in any jurisdiction in which such an invitation or inducement is not permitted or where the SPAC and the Company are not qualified to make such invitation or inducement. In the event of any conflict between this Investor Presentation and information contained in the Offering Materials, the information in the Offering Materials will control and supersede the information contained in this Investor Presentation. No person has been authorized to make any statement concerning the SPAC or the Company other than as will be set forth in the Offering Materials, and any representation or information not contained therein may not be relied upon.

Cautionary Language Regarding Forward-Looking Statements

This Investor Presentation includes "forward-looking statements" within the meaning of the "safe harbor" provisions of the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements may be identified by the use of words such as "may," "might," "will," "would," "could," "should," "forecast," "intend," "seek," "target," "anticipate," "believe," "expect," "estimate," "plan," "outlook" and "project" and other similar expressions that predict or indicate future events or trends or that are not statements of historical matters. Such forward-looking statements, which include estimated financial information, involve known and unknown risks, uncertainties and other factors.

A number of factors could cause actual results or outcomes to differ materially from those indicated by such forward-looking statements. These factors include, without limitation,

- the risk that the proposed Business Combination may not be completed in a timely manner or at all, which may adversely affect the price of the securities of the SPAC or the Company;
- the risk that the proposed Business Combination may not be completed by the 24-month deadline to which the SPAC is subject and the potential failure to obtain an extension of the deadline if sought by the SPAC;
- the failure to satisfy conditions to the consummation of the proposed Business Combination, including the adoption of a business combination agreement (the "BCA") by the shareholders of the SPAC and the Company;
- the lack of a third-party valuation in determining whether or not to pursue the proposed Business Combination;
- the occurrence of any event, change or other circumstance that could give rise to the termination of the BCA;
- the effect of the announcement or pendency of the proposed Business Combination on the Company's business relationships, performance and business generally;
- risks that the proposed Business Combination disrupts current plans and operations of the Company;
- the outcome of any legal proceedings that may be instituted against the Company or the SPAC related to the BCA or the proposed Business Combination;
- the ability to maintain the listing of the SPAC's securities on Nasdaq;
- the volatility of the price of the SPAC's and the post-combination company's securities;
- the ability to implement business plans, forecasts and other expectations after the completion of the proposed Business Combination, and identify and realize additional opportunities;
- the risk of downturns and the possibility of rapid change in the highly competitive industry in which the Company operates;
- the risk that the Company and its current and future collaborators are unable to successfully develop and commercialize the Company's products or services, or experience significant delays in doing so;
- the risk that the post-combination company may not achieve or sustain profitability;
- the risk that the post-combination company will need to raise additional capital to execute its business plan, which may not be available on acceptable terms or at all; and
- the risk that the post-combination company experiences difficulties in managing its growth and expanding operations.

You should (also) carefully consider the risks and uncertainties described on pages * and * of this presentation

Forward-looking statements are based on current expectations, estimates, projections, targets, opinions and/or beliefs of the SPAC and the Company or, when applicable, of one or more third-party sources. No representation or warranty is made with respect to the reasonableness of any estimates, forecasts, illustrations, prospects or returns, which should be regarded as illustrative only.

You should carefully consider the foregoing factors and the other risks and uncertainties described in the "Risk Factors" section of the SPAC's registration statement on Form S-1 (the "Registration Statement") and the proxy statement/prospectus discussed below and other documents filed by the SPAC from time to time with the U.S. Securities and Exchange Commission ("SEC"). These filings identify and address other important risks and uncertainties that could cause actual events and results to differ materially from those contained in the forward-looking statements.

You are cautioned not to place undue reliance upon any forward-looking statements, which, unless otherwise indicated herein, speak only as of the date of this Investor Presentation. Neither the SPAC nor the Company commits to update or revise the forward-looking statements set forth herein, whether as a result of new information, future events or otherwise, except as may be required by law.

Use of Projections

This Investor Presentation contains financial forecasts or projections (collectively "Projections") prepared by the Company. The Company's independent registered public accounting firm has not audited, reviewed, compiled or performed any procedures with respect to the Projections for the purpose of their inclusion in this Investor Presentation and, accordingly, neither the SPAC nor the Company expresses an opinion or provides any other form of assurance with respect thereto for the purpose of this Investor Presentation. These Projections should not be relied upon as being necessarily indicative of future results. The Projections are provided solely for illustrative purposes, reflect the current beliefs of the Company as of the date hereof, and are based on a variety of assumptions and estimates about, among others, future operating results, market conditions and transaction costs, all of which may differ from the assumptions on which the Projections are based. The Company does not assume any obligation to update the Projections or information, data, models, facts or assumptions underlying the foregoing in this Investor Presentation.

There are numerous factors related to the markets in general or the implementation of any operational strategy that cannot be fully accounted for with respect to the Projections. Any targets or estimates are therefore subject to a number of important risks, qualifications, limitations and exceptions that could materially and adversely affect the combined company's performance. Moreover, actual events are difficult to project and often depend upon factors that are beyond the control of the SPAC and the Company. The performance projections and estimates are subject to the ongoing COVID-19 pandemic, and have the potential to be revised to take into account further adverse effects of the COVID-19 pandemic on the future performance of the SPAC and the Company. Projected returns and estimates are based on an assumption that public health, economic, market, and other conditions will improve; however, there can be no assurance that such conditions will improve within the time period or to the extent estimated by the SPAC and the Company. The full impact of the COVID-19 pandemic on future performance is particularly uncertain and difficult to predict, therefore actual results may vary materially and adversely from the Projections included herein.

Presentation of Financial Information

The Company's financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS"), which may not be comparable to financial statements prepared in accordance with US generally accepted accounting principles.

Use of Non-GAAP Financial Measures

This Investor Presentation includes certain financial measures not presented in accordance with GAAP, including, but not limited to, EBITDA and certain ratios and other metrics derived therefrom. These non-GAAP financial measures are not measures of financial performance in accordance with GAAP and may exclude items that are significant in understanding and assessing the Company's financial results. Therefore, these measures should not be considered in isolation or as an alternative to net income, cash flows from operations or other measures of profitability, liquidity or performance under GAAP. You should be aware that the Company's presentation of these measures may not be comparable to similarly-titled measures used by other companies, including those peers whose measures are presented in this Investor Presentation.

The Company believes these non-GAAP measures of financial results provide useful information to management and investors regarding certain financial and business trends relating to the Company's financial condition and results of operations. The Company also believes that the use of these non-GAAP financial measures provides an additional tool for investors to use in evaluating ongoing operating results and trends, and in comparing the Company's financial measures with other similar companies, many of which present similar non-GAAP financial measures to investors. These non-IFRS financial measures are subject to inherent limitations as they reflect the exercise of judgments by management about which expense and income are excluded or included in determining these non-GAAP financial measures. Please refer to any footnotes where presented in this Investor Presentation, as well as to the table on the final page, for a reconciliation of these measures to what the Company believes are the most directly comparable measure evaluated in accordance with GAAP.

This Investor Presentation also includes certain projections of non-GAAP financial measures. Due to the high variability and difficulty in making accurate forecasts and projections of some of the information excluded from these projected measures, together with some of the excluded information not being ascertainable or accessible, the Company is unable to quantify certain amounts that would be required to be included in the most directly comparable IFRS financial measures without unreasonable effort. Consequently, no disclosure of estimated comparable GAAP measures and no reconciliation of the forward-looking non-GAAP financial measures are included in this Investor Presentation.

Certain monetary amounts, percentages and other figures included in this Investor Presentation have been subject to rounding adjustments. Certain other amounts that appear in this Investor Presentation may not sum due to rounding.

Third-party logos included herein may represent past customers, present customers or may be provided simply for illustrative purposes only. Inclusion of such logos does not necessarily imply affiliation with or endorsement by such firms or businesses. General

This Investor Presentation is strictly confidential and may not be copied, reproduced, redistributed or passed on, in whole or in part, or disclosed, directly or indirectly, to any other person or published or for any purpose without the express written approval of the SPAC and the Companies. This Investor Presentation may not be reproduced or used for any other purpose. By accepting this Investor Presentation, the recipient agrees that it will, and will cause its representatives and advisors to, use this Investor Presentation, as well as any information derived by the recipient from this Investor Presentation, only for initial due diligence regarding the SPAC and the Company in connection with (i) the proposed Business Combination and (ii) the SPAC's proposed private offering of public equity ("PIPE Offering") to a limited number of investors and for no other purpose and will not, and will cause their representatives and advisors not to, divulge this Investor Presentation to any other party.

The delivery of this Investor Presentation shall not, under any circumstances, create any implication that the Investor Presentation is correct in all respects, including as of any time subsequent to the date hereof, and the SPAC and the Company do not undertake any obligation to update such information at any time after such date. Neither the SPAC nor the Company nor any of their respective affiliates makes any representation or warranty, express or implied, as to the accuracy or completeness of this Investor Presentation and nothing contained herein should be relied upon as a promise or representation as to past or future performance of the SPAC, the Companies or any other entity referenced herein. An investment through the PIPE Offering entails a high degree of risk and no assurance can be given that investors will receive a return on their capital and investors could lose part or all of their investment.

Each recipient acknowledges and agrees that it is receiving this Investor Presentation only for the purposes stated above and subject to all applicable confidentiality obligations as well as securities laws, including without limitation the U.S. federal securities laws and the EU Market Abuse Regulation, prohibiting any person who has received material, non-public information/inside information from purchasing or selling securities of the SPAC or the Company or from communicating such information to any other person under circumstances in which it is reasonably foreseeable that such person is likely to purchase or sell such securities

The following list of risk factors is provided to certain sophisticated institutional investors in connection with a potential investment in CHW Acquisition Corporation (the "SPAC"), or a newly formed holding company, as part of a proposed business combination between the Company and the SPAC pursuant to which the combined company will become a publicly traded company (the "Business Combination"). References to "we," "us" or "our" are to the Company and, following the Business Combination, refer to the combined company. The list of risk factors has not been prepared for any other purpose. Investing in the combined company's common shares to be issued in connection with the Business Combination involves a high degree of risk. Investors should carefully consider the risks and uncertainties inherent in an investment including those described below, and conduct their own due diligence investigation, before making an investment decision. If we cannot address any of the following risks and uncertainties effectively, or any other risks and difficulties that may arise in the future, our business, financial condition or results of operations could be materially and adversely affected. The risks described below are not the only ones we face. The following list of risks is not exhaustive, and additional risks that we currently do not know about or that we currently believe to be immaterial may also impair our business, financial condition or results of operations. Risks relating to our business will be disclosed in future documents filed or furnished with the US Securities and Exchange Commission ("SEC"), including the documents filed or furnished in connection with the proposed Business Combination. The risks presented in such filings will be consistent with those that would be required for a public company in their SEC filings and may differ significantly from, and will be more extensive than, those presented below.

- **Risks Related to Our Business and Industry**

- The COVID-19 pandemic, and any future outbreak or other public health emergency, could materially affect our business, liquidity, financial condition and operating results.
- We may experience significant fluctuations in our operating results and rates of growth.
- Online marketplaces for pet care are still in relatively early stages of growth and if demand for them does not continue to grow, grows slower than expected, or fails to grow as large as expected, our business, financial condition and operating results could be materially adversely affected.
- We face intense competition and could fail to gain, or could lose, market share if we are unable to compete effectively.
- Our failure to quickly identify and adapt to changing industry conditions may have a material and adverse effect on us.
- Any significant interruptions or delays in IT service or any undetected errors or design faults in IT systems could result in limited capacity, reduced demand, processing delays and loss of customers, suppliers or marketplace merchants and a reduction of commercial activity.
- Our success depends in large part on our ability to attract and retain high quality management and operating personnel, and if we are unable to attract, retain and motivate well qualified employees, our business could be negatively impacted.
- We may from time to time pursue acquisitions, which could have an adverse impact on our business, as could the integration of the businesses following acquisition.
- Exchange rate fluctuations may negatively affect our results of operations.

• Risks Related to Legal, Regulatory and Tax Matters

- If pet caregivers are reclassified as employees under applicable law, our business would be materially adversely affected.
- Our business is subject to a variety of U.S. laws and regulations, many of which are unsettled and still developing and failure to comply with such laws and regulations could subject us to claims or otherwise adversely affect our business, financial condition, or operating results.
- Government regulation of the Internet, mobile devices and e-commerce is evolving and unfavorable changes could substantially adversely affect our business, financial condition and operating results.
- Taxing authorities may successfully assert that we have not properly collected, or in the future should collect, sales and use, gross receipts, value added, or similar taxes and may successfully impose additional obligations on us and any such assessments, obligations, or inaccuracies could adversely affect our business, financial condition and operating results.
- Our ability to use our net operating loss carryforwards and certain other tax attributes may be limited.
- We are subject to increasingly stringent environmental regulations.
- We may not be able to adequately protect our intellectual property rights or may be accused of infringing intellectual property rights of third parties.
- We may be unable to continue the use of our domain names or prevent third parties from acquiring and using domain names that infringe upon, are similar to or otherwise decrease the value of our brands, trademarks, or service marks.
- We may be subject to product liability claims if people or property are harmed by the products sold on our platform.
- Some of our potential losses may not be covered by insurance. We may not be able to obtain or maintain adequate insurance coverage.
- We may be exposed to enforcement for violating anti-corruption laws, anti-money laundering laws and other similar laws and regulations.
- Any actual or perceived breach of security or security incident or privacy or data protection breach or violation could interrupt our operations, harm our brand and adversely affect our reputation, brand, business, financial condition and operating results.
- Changes in laws or regulations relating to privacy, data protection, or the protection or transfer of data relating to individuals, or any actual or perceived failure by us to comply with such laws and regulations or any other obligations relating to privacy, data protection or the protection or transfer of data relating to individuals, could adversely affect our business.
- Systems defects and failures and resulting interruptions in the availability of our website, mobile applications, or platform could adversely affect our business, financial condition and operating results.
- If third-party payment service providers become unavailable or we are subject to increased fees, our business, operating results and financial condition could be materially adversely affected.
- If third parties software providers were to interfere with the distribution of our platform or with our use of such software, our business would be materially adversely affected.
- We rely on mobile operating systems and application marketplaces to make our applications available to pet parents and pet caregivers and if we do not effectively operate with or receive favorable placements within such application marketplaces and maintain high user reviews, our usage or brand recognition could decline and our business, financial results and operating results could be materially adversely affected.

Risk Factors

- **Risks Related to Owning the Combined Company's Shares**

- A market for the combined company's common shares may not develop or be sustained, which would adversely affect the liquidity and price of the combined company's common shares.
- Sales of a substantial number of the combined company's common shares in the public market, including those issued upon exercise of warrants or options, could cause our share price to decline.
- The combined company's future ability to pay cash dividends to shareholders is subject to the discretion of its board of directors and will be limited by its ability to generate sufficient earnings and cash flows.

- **Risks Related to Being a Public Company**

- The combined company will incur increased costs as a result of operating as a public company, and its management will devote substantial time to new compliance initiatives.
- If our estimates or judgments relating to our critical accounting standards prove to be incorrect, or such standards change over time, our results of operations could be adversely affected.
- We could in the future need to disclose, and be required to remediate, material weaknesses or significant deficiencies in our internal control over financial reporting.
